Eriez® Appoints Managing Director for Eriez-Germany

Erie, PA—[Eriez®](#) President and CEO Lukas Guenthardt announces the company has selected Eric Adams to serve as Managing Director for the company's newly established Eriez Deutschland GmbH, based in Recklinghausen, Germany.

In his new role, Adams will lead efforts to increase Eriez' presence throughout central Europe, including Germany, Austria and Switzerland. Guenthardt says, "Eric has been working closely with our executive team at [Eriez-Europe](#) to craft and execute a comprehensive business plan that addresses the needs of the German market." He adds, "We recognize that this area of Europe is far too important to properly serve via an independent agent or distributor and; therefore, requires a direct and constant presence in the form of Eriez-Germany, guided by the strong leadership of Eric."

Adams will report to Eriez' Vice-President-International Jaisen Kohmuench. "Eric's three decades of experience in technical sales of capital equipment has been integral to the ramp up of Eriez-Germany," says Kohmuench. He adds, "Eric is already proving to be a tremendous asset to the company, and we are fortunate to have him on our team."

Adams started his career as a sales engineer supporting deep drilling and mining support systems. Prior to that, he worked for Fördertechnik and Noell Service und Maschinentechnik, a provider of microtunnel technology. He continued in this area, eventually becoming a sales executive at Herrenknecht AG. More recently he served as General Sales Manager of Steinert Elektromagnetbau and then Managing Director of H+E Logistik, a subsidiary of Herrenknecht AG, a manufacturer of belt conveyor systems for tunnel construction.

Eriez is recognized as the world authority in separation technologies. The company's magnetic separation, metal detection, material handling, fluid recycling and advanced flotation technologies have application in the mining, processing, packaging, food, recycling, aggregate, plastics and metalworking industries. Eriez designs, manufactures and markets these products through 13 international subsidiaries located on six continents. For more information, visit www.eriez.com or contact Eriez World Headquarters, 2200 Asbury Road, Erie, PA 16506 USA at +1 814 835-6000 or eriez@eriez.com.
